

FRIENDSHIP CIRCLE

Take a square of paper, fold it in half diagonally (1), then in half again (2) and again (3), and again (4).

With the point (of the folds) towards you, draw the figure on the paper.

Cut along the wide solid lines.

Open it up and you have a circle of friends.

Color or decorate as you wish to make the figures represent people from all over the world.

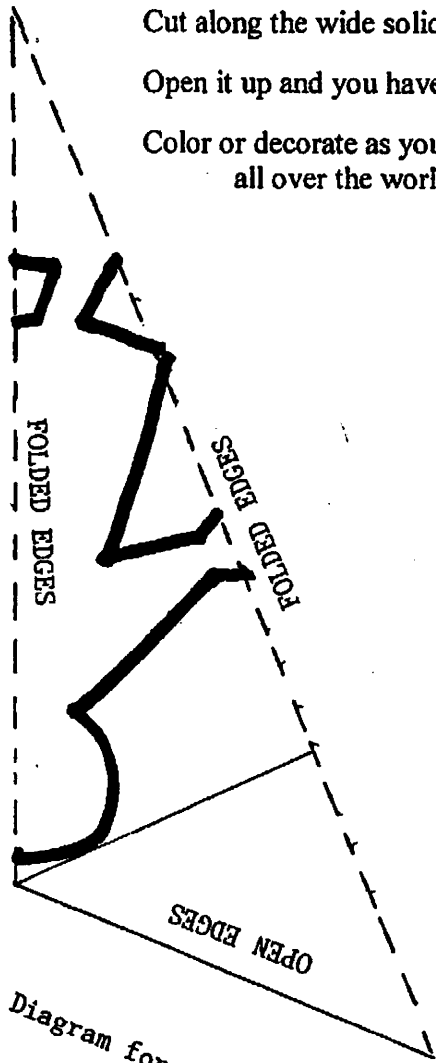

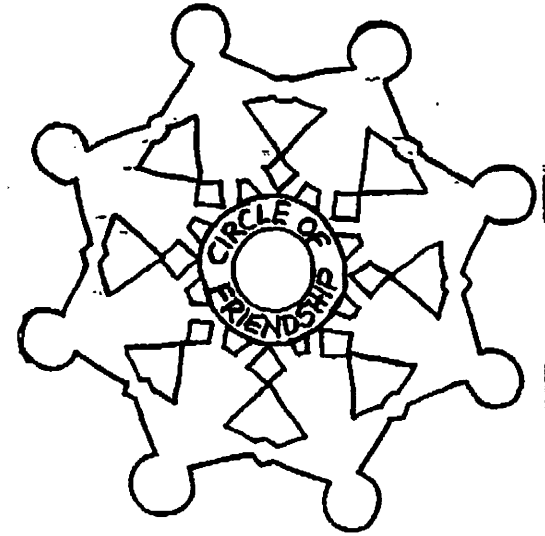

Diagram for 8 1/2 inch square
