

World Flag Skit

Preparation

A large pot with the World Flag and a cup of water at the bottom of the pot.

(Don't let the audience see these)

Give people in the audience the following items with instructions to bring them to you when you request them

Announce that you are going to make the World Flag, something to represent Girl Guiding and Girl Scouting all around the world. Have an assistant stir the pot after each addition

Skit

Call for something blue (a light blue towel or piece of fabric) to represent the sky that shines over all of us around the world.

(A big yellow construction paper sun) is added to the pot for the sun shining over all the children in the world.

(White piece of paper) to represent our commitment to peace

(Two large tinfoil covered stars) to represent the Promise and Law

(Embroidery hoop or something round) to represent our world wide association

(Something with a trefoil on it) representing our three-fold Promise

(Three golden colored pieces of paper with one part of the Promise written on each piece) read out each paper as it is brought to the pot

(A compass) to show the way

Stir after each addition and then with a flourish ask if anyone in the audience has a match. Strike the match and explain the flame burns with the love of humanity
Dramatically drop the match carefully into the cup of water inside the pot.

Announce to the girls that the World Flag is ready. Reach into the pot and pull out the World Flag. After the gasp of amazement from the girls, hold up the flag and reinforce the elements of the flag and their meanings.
